Location and Investment Conditions

✔ An excellent hub of logistics with nearby Seohaean Expressway, harbor, and airport

- Seohaean Expressway: Mokpo - Seoul, within 3 hours
- High-speed railway (KTX, SRT): Mokpo - Seoul, within 2 hours
- New Mokpo Port: 8km from Daeyang Industrial Complex, operating six 30,000-ton ships
- Muan International Airport: Daeyang Industrial Complex - Airport, 20km
- Promoting regular routes between China for car ferries and containers for import and export based on FTA

✔ An urban industrial complex with settlement conditions such as housing, educational facilities, medical facilities, etc.

- Outstanding settlement conditions for workers as it is located only 10 minutes away from downtown
- 4,000-household apartments, 440-household Happy Houses, 49 educational institutes, and 31 medical facilities around the industrial complex
- Easy use of industrial manpower in connection with universities

✔ Creation of a convergence zone of maritime and fisheries; integrates infrastructure for marine products

- Establishment of an export complex for marine products: '17 - '21, KRW 100 billion
- Establishment of a maritime and fisheries supporting institute for the southwest area: '17 - '18
- Promoting the establishment of the National Seaweed Industry Research Institute: '17 - '19
- Operation of Mokpo MarineFood-Industry Research Center: Located 2km away from Daeyang Industrial Complex

✔ Good access to KEPCO's HQ, fully prepared as the back-up city for producing electric equipment

- Energy valley zone industrial complex: 37km away from the headquarters of KEPCO
- Easy to supply extra-high voltage power (154KV), the industrial complex on hard bedrock

✔ Establishment of a public logistics center for cargo vehicles within Daeyang Industrial Complex

- Establishment of a public garage for cargo vehicles (92,000m²): Parking lot that can accommodate up to 600 vehicles, convenience facilities, etc

✔ Designation as a special support zone for local SMEs

- Procurement of limited competition and private contract support, preferred loan financing, etc.

R&D facilities by industry

- Operation of a MarineFood-Industry Research Center for the highly functional marine product industry
- Operation of a southwest mid-size shipbuilding industry RIC for the mid-size shipbuilding industry
- Operation of a comprehensive ceramic industry support center for the ceramic industry
- Operation of a green energy research institute for the promotion of renewable energy and converged energy
- Operation of a venture support center and a cultural industry support center for the promotion of the IT industry

※ The best location for building a convergence zone for maritime fisheries and backing up the renewable energy industry
